		8 May. At 2 p.m., a formation of 12 MiG-15s was aloft. At 2:30 p.m., I1-10s practiced diving. Between 7 and 11 p.m., night flying was practiced by ground attack planes.	
		9 May. Three elements of two MiG-15s each took off at 8:30 a.m.	
		and subsequently headed toward the Elbe River. Il-10s circled the	
		field between 10 a.m. and 2 p.m. and practiced diving between 2 p.m. and 4 p.m. Throughout the day there was formation flying by swept-back jet fighters.

		12 May. Between 6 p.m. and 6:30 p.m., 3 Il-10s circled the field. There was a low could base and rain.	
	2.	In early May, seven earth walls, 50 to 30 meters apart, extended in about north-south direction along the western edge of the field.	
	. 3.	In early May, construction work of an unidentified type was observed in the AA gun emplacement on the southern edge of the field where timber had arrived.

25X1A		Comment. Alt Loennewitz airfield is occupied by a fighter regiment and a ground attack regiment. Recently the aircraft of the fighter regiment were mostly observed practicing formation flying, while initial flight training by fighter pilots was seldom observed. Air activity by Il-los with extended landing gears indicates that basic flying was practiced by some young pilots of the ground attack regiment.
